

Field Expedient Antenna Kit (FEA Kit)

Radio Reconnaissance Technologies Inc. has created a Field Expedient Antenna Kit (FEA Kit) that provides operators all of the necessary supplies and items required to construct tactical communication or collection antennas in the field. The kit contains enough of the necessary equipment to allow two separate teams to construct smaller kits or individual "Jump Bags" for important field operations; when convenience, size and weight are critical.

RRT's FEA Handbook supplies users (skilled and novice) with important antenna building basics, suggestions, and formulas as to the type of antenna to be used in a variety of situations. Overall the RRT FEA Kit is a simple yet invaluable piece of equipment - Supplying users the basic tools needed to successfully accomplish their communication or collection mission.

Highlighted Features: Antenna Tuners, Antenna, Multi-Meters, Lead Lines, Wire, Connectors, Screwdrivers, Stripper/Crimper/Cutters, Grounding Rods, Jump Bags. Kits can also be customized to meet your specific needs.

Weight: Approximately 53lbs (Depending on desired equipment) – Jump Bags can be broken into smaller, more compact, portable kits.

Exterior Dimensions: Pelican® 1610 Case – 24.83"L x 19.69" W x 11.88"H

RRT Part Number 01-778-0007
