

RRT BB/BA-XX90 BATTERY CABLES & ACCESSORIES

Hardwire Cables:

RRT Inc. military battery power cables have a ruggedized BB/BA-XX90 battery connector with the distant cable end left open for the customer to attach to either their equipment, or their preferred power connector. These cables are 2 feet minimum length, and are offered as a 12 volt 2 wire, 24 volt 2 wire, or in a 4 wire 12/24 volt configuration. Custom lengths are available.

BP-778:

This device connects directly to any BB/BA-XX90 battery providing a cigarette lighter socket for powering any device that pulls less than 4 amps @ 12 volts DC (nominal). *Shown without USB adapter.

BB/BA-XX90 Connector:

This device connects directly to any BB/BA-XX90 battery and provides the user the option of choosing their own power cable.
