

BP-778/U
BA-XX90 Cigarette Lighter

This device connects directly to any BB/BA-XX90 battery affording the user a standard cigarette lighter adapter socket and a standard USB power connection.

The convenient USB plug allows the user to easily charge any device charged or powered via standard USB such as a tablet, mobile phone or music device.

Both the cigarette lighter connector and USB plug can be used to power equipment simultaneously! The BP-778 is compact, lightweight, and a must for the field, deployments, or just an added convenience in the office.
